Services

Do you need to get your garden area(s) under control, or just to coax out the beauty you know is in there... *somewhere*? Or maybe you're starting fresh and need someone to help you design a new gardenscape?

Select from the following buffet of services, and let us know how we can best help you **turn your outdoors into a little slice of heaven**.

- **Maintenance or Maintenance with Enhancements**
- **Personalized Services**
- **Design**

What's a Gardenscape??

That's what we call a **smaller-scale residential landscape**. It might be just one flowerbed, or an outdoor haven of several beds, shrubs, container plants, seating, etc.

Maintenance or Maintenance with Enhancements

Already have an established garden area, but need help getting it under control or keeping it in top shape? Getting your home ready for sale and want to increase your curb appeal? Try our Maintenance services.

You Receive:

- A FREE initial site visit
- Our energy, knowledge and expertise included in our labor package
- All the beauty of a gorgeous outdoor space, but none of the effort!

The Process:

1. Contact us so we schedule your **FREE initial site visit**.
2. We will meet you at your house to look at your garden area(s) and talk with you about your maintenance needs (see options below).
3. We will then prepare a proposal, including a maintenance description (either one-time cleanup, one-time cleanup with enhancements or seasonal plan), and an estimate of maintenance costs for your specific garden area(s).
4. After you have accepted our maintenance proposal, we carefully tend to your garden while you tend to your other priorities. Your garden will stay in top shape all season long!

Maintenance Options

One-time Clean-up:

For existing flowerbeds and existing beds around trees, we weed the beds, prune, trim, and deadhead existing plants, refresh the existing mulch, and make sure there's a nice clean edge around the beds. We will also plant colorful annuals to if you want to enhance your existing plantings.

One-time Clean-up with Enhancements:

In addition to one-time cleanup services described above, we can recommend and install for you light enhancements, for example, adding perennials to augment your existing landscape structure.

Seasonal:

Spring: Let us wake up your garden! We pull/dig up weeds, put down fresh mulch, clean up the edging, clean out spent plant parts, and prune/trim existing plants. We will also plant spring annuals if you want to add a splash of vibrant color.

Summer: Let us provide extra TLC to your sun-ravaged garden! We pull/dig up weeds, fill in any mulch bare or thin spots to protect tender plants from heat, clean up the edging, deadhead, and clean out spent plant parts.

Fall: Let us put your garden to bed for the winter! We pull/dig up weeds, add mulch if necessary to protect tender plants over the winter, clean up the edging, clean out spent plant parts, and prune/trim existing plants. We will also plant fall annuals if you want to keep color around into the cold winter months.

Personalized Services

As a small firm, we are equipped to provide these personalized services.

Plant Purchasing: You benefit from our established relationships with local nurseries by arranging for Signature Gardenscapes to hand-select the highest quality plants and coordinating delivery to your home, based on your installation timeline.

Plant Container/Box Designs: Showcase your porch, deck, or patio with customized plant designs for your containers, boxes, or hanging baskets.

Garden Project Planning: Want to implement landscape improvements using your own muscle? We can lay out the implementation plan for you, establishing the priorities and dependencies according to your timeline and budget.

Garden Coaching and Virtual Garden Coaching: HELP! Not sure where to start?! We work 1:1 with the homeowner for the homeowner to create a high level plan of improvements, then we periodically check in with the homeowner to review improvements he/she has made to date and suggest revisions to the high level plan if necessary. Signature Gardenscapes performs as consultants to your project. We are also equipped to provide virtual garden coaching for gardens located outside of our immediate service area. Time and distance are not obstacles to us!

Hands-on Training: We can design a program in which you and Signature Gardenscapes work side-by-side, together in your garden. This service is designed to educate you in plant care and maintenance so you eventually have the knowledge and confidence to care for your gardens on your own.

Design

Want to do the planting yourself, but don't know what or where to plant? Try our Design service.

You Receive:

- ◆ A FREE initial site visit
- ◆ A design plan (aerial view, top down) for your plantings, flowerbeds, etc.
- ◆ A list of plants and quantities you'll need of each
- ◆ The information you need to create your own gorgeous outdoor space!

You can then take that information to a local nursery, quickly purchase everything you need, and use the design plan as a guide for installing your new flowerbeds and plantings.

The Process:

1. Contact us so we schedule your **FREE initial site visit**.
2. We will meet you at your house to look at your "trouble spots," get an idea of your likes and dislikes, and take a few measurements.
3. We will prepare a proposal, including a description of the design process and an estimate of design cost for your specific garden area(s).
4. After you accept our proposal, we'll create your design plan using state-of-the-art CAD (computer assisted design) software and our extensive plant database.

We recommend plants appropriate for your geographic region and specifically for the micro-climates and soil type of your garden area(s). We want your garden to flourish as much as you do, so we are careful to select **the right plants for the right places!**

Need Something Else?

If you need other gardening services that aren't listed here, please contact us to see how we can help!
